

Gender Mainstreaming in the Quality Assurance Process of University Degrees (ES)

Gender Mainstreaming in the Quality Assurance Process of University Degrees (ES)

The Catalan University Quality Assurance Agency developed a [General framework for incorporating a gender perspective in higher education teaching](#). The Framework establishes guidelines and recommendations for gender mainstreaming in the curricula of undergraduate and graduate programmes. It also provides a set of new gender indicators throughout the quality assurance standards of officially recognized degrees ([Guide to the accreditation of recognised bachelor's and master's degree programmes](#)) – a pioneer approach in this policy area.
