

Manual for journalists ("Watch your mouth!")

The manual for journalists was presented in the form of a Diversity Toolkit for Media (subtitle Watch Your Mouth!). It featured a chapter on career growth and decision-making, as well as recommendations for diversity and gender equality checklists and other tools. It is the result of a shared commitment, with the support and interest from the media organisations including the Council for Electronic Media, the Self-Regulation committee, the large broadcasters and publishers, and journalists covering relevant themes.
