

Naisjohtajuutta ja naisten urakehitystä käsittelevien tilastotietojen ja indikaattorien parantaminen

Aims and objectives

To ensure the availability of the statistical information needed for monitoring of women's career advancement and women managers in different sectors for developing policy measures to improve the situation.

Results and impact

According to the final report of the Gender Equality Action Plan 2008-2011, Statistics Finland produced a publication on women in decision-making, and a report on how the statistics production in this field could be improved. Statistics Finland now produced regularly certain statistics on women in decision-making and women in business leadership.

Creator/owner/responsible institution

Ministry of Finance

Contents/activities/services

Ensuring that regularly updated statistics on the share of women among managers in different

sectors and levels of management will be available.
