Aims and objectives

Concept Paper on Gender Equality Implementation (2001) states that in order to establish effective institutional mechanism for providing GM sex-disaggregated statistics is needed for evaluation of situation.

Results and impact

Sex-disaggregated statistics are used in policy areas of Ministry of Welfare. Frequency is established by reports on the implementation of Programme for implementation of gender equality (Informative report on the implementation of Programme for implementation of gender equality 2005-2006; Informative report on the implementation of Programme for implementation of gender equality 2007-2010). Other policy areas use method on ad hoc principle.

Creator/owner/responsible institution

Ministry of Welfare, all ministries, Central Statistical Office

Contact: lm@lm.gov.lv

Contents/activities/services

All ministries are required to cooperate with the Central Statistical Office and to set area specific statistical indicators needed for evaluation of situation.
