

Gender Mainstreaming - In Practice

Aims and objectives

An EU co-funded project VS/2010/0819 with the aim of strengthening the knowledge and understanding of gender mainstreaming within the public administration and relevant stakeholders through a symposium on good practices, training and the publication of resources.

Results and impact

The publications and training highlighted the benefits of gender mainstreaming in order to encourage further implementation of this principle. A network of persons within ministries was established to provide support to other public employees in their GM exercise.

Creator/owner/responsible institution

National Commission for the Promotion of Equality (NCPE)

Contents/activities/services

Important tools were produced and disseminated during a symposium and various training sessions for the effective implementation of gender mainstreaming.
