

Έκθεση Διερεύνησης του περιβάλλοντος εφαρμογής μορφών ευέλικτης απασχόλησης στην Κύπρο

The research report on Flexible Working Arrangements (FWAs) investigates: the context and the trends for developing FWAs in Cyprus; the legal framework; the workforce's and companies' attitudes and positions towards FWAs; the chances of success and the expected consequences of FWAs implementation; the difficulties of implementation in the context of the Cypriot labour market; the measures facilitating entry and re-entry of inactive population in the labour market; and proposals for implementing a pilot project on FWAs.
