

TYÖKIRJA TASA-ARVOSTA JA, YHDENVERTAISUUDESTA, Tasa-arvon ja yhdenvertaisuuden edistäminen, Vantaan kaupungin toimintatapana, Vantaan Kaupunki

The handbook on gender equality and diversity is a tool for the officials of the city to strengthen their practices on gender equality and diversity. The new laws on gender equality and equality on other accounts (ethnicity, religion etc.) require public officials to promote and further equality in a planned way. The City of Vantaa is aiming to change practices in the City on a deeper level. The handbook is a conversation starter as well as a collection of good practices. It aims to help officials link and promote gender and other equalities in the City's activities.
