
Moterų ir vyrų lygių galimybių užtikrinimo moksle strategija

The Order regarding the Strategy of Women and Men Equal Opportunities in Science Promotion (hereinafter - the Strategy) has been approved in 2008. The strategy is a result of the goals and measures indicated in the National Programme for Equal Opportunities for Women and Men programme 2005-2009. It aims to consolidate the implementation of gender equality at all (institutional, organizational and individual) Lithuanian education system levels, seeks to increase the number of women in senior management positions in the highest levels of research and educational institutions and seeks to increase the number of women in natural and technological sciences.
