

# Worldwide Monitoring Project on Media -2010

## "Who plays in the news?"

Since 1995 the GMMP works to provide documentary evidence the lack of presence of worldwide. The projects starts from one of the main and consistent concern of the women's movements: political implication of representation.

### Key information on trends and challenges on women and the media:

GMMP Reports shows an increase of 6% in the number of women represented by news since 2009. The number of news reported by women journalist (TV, radio, journals) is exactly the same as in 2005 (37%).
