

The Female FTSE Report 2013

Cranfield School of Management's Female FTSE Report notes that progress with the Women on Boards agenda in the FTSE 100 has stalled over the last six months. It does note, however, that the UK is on target to meet Lord Davies' original 2011 'Women on Boards' report recommendation that the UK should have 25% women on FTSE 100 boards by 2015.
