Bernard Brunhes International

Bernard Brunhes International was created in 1991 as the international department of Bernard Brunhes Consultants, became a separate legal entity in 1995 and since 2003 is part of a larger structure - the BPI Group- through which it has access to one of the largest human resources consultancies in the EU that is since recently also present in the US and the Russian Federation. BBI is specialised in the areas of social affairs, employment and health and most often provides public consulting services within the scope of programmes and projects financed by international funding agencies and most importantly the EU.
