

Gender Equality in Academia and Research

Gender Equality Plan 2019–2023 – Estonian Marine Institute of the University of Tartu (EE)

TYPE OF ORGANISATION: University

HORIZON EUROPE GEP ACTION FIELD: GEP development and implementation

COUNTRY: Estonia

The Estonian Marine Institute was invited to participate in the Horizon 2020 project “Baltic Gender”, which aimed to promote gender equality in marine research institutions. One specific measure was the development of (voluntary) GEPs in all partner institutes. The general goal of the GEP is to promote equality through institutional change in order to optimise human capacity to address the growing challenges of the marine environment.
