

Call for tender - Study of collected narratives related to gender perceptions in 27 EU Member States

Description

The overall objective of this project is, on the basis of the proposed innovative methodology, to collect in 27 Member States the narratives related to gender perceptions, to analyse the collected data in the report and to create an online database of stories to be open for a future use within EIGE's activity geared to identifying and addressing gender stereotypes.

IMPORTANT: At the request of the tenderer, EIGE may provide additional information solely for the purpose of clarifying the nature of the contract. Any additional information including that referred to above will be published on this website. Requests for additional information will not be processed if received less than five working days before the closing date for submission of tenders.
