

Grey literature on justice

Grey literature on justice

What is grey literature? It is literature produced by non-commercial publishers, such as public institutions, universities, research institutes and civil society. It contains a lot of useful content, but is often hard to find as it is scattered across different locations. EIGE has collected grey literature on gender equality and you can access our collection through a simple search interface. EIGE's collection of grey literature is available in several EU languages and documents come from all EU Member States.

The relevance of gender to justice

It is essential that there is gender equality in the justice field. Access to justice is a fundamental human right and an integral aspect of the rule of law.

Grey literature in EIGE's library

EIGE's library holds one of the largest collections of gender-related literature related to justice. The collection presents **good practices** of current policies throughout Europe as well as **gender indicators** aimed at advancing gender equality in this domain.

Anti-discrimination policies

In the library you will find resources on anti-discrimination legislation and policies. Many of the resources discuss how European and national equality legislation is implemented and enforced. You will also find resources that examine patterns across communities regarding social norms and gender roles, as well as **women's empowerment**. Our collection of grey literature includes a broad range of issues related to **multiple discrimination**, such as migrant women, disabled women, Roma women and LGBTI asylum seekers.
