

Gender Equality Index 2020

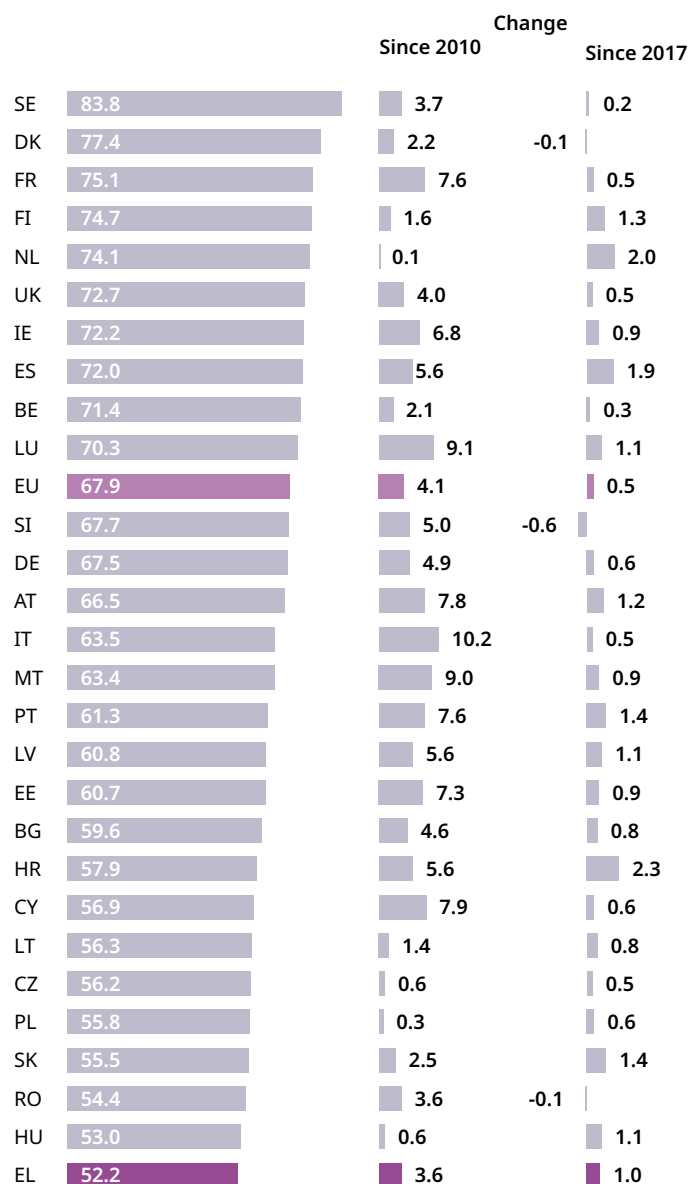

GREECE

Progress on gender equality in Greece since 2010

With 52.2 out of 100 points, Greece ranks last in the EU on the Gender Equality Index. Greece's score is 15.7 points below the EU's score.

Since 2010, its score has increased by 3.6 points, with a slight increase of 1.0 point since 2017. Its ranking has remained the same since 2010.

Best performance

Greece's scores are highest in the domains of health (84.0 points) and money (72.5 points). In each of these domains, Greece has one of the lowest scores among all countries (ranking 21st and 22nd, respectively).

Most room for improvement

Gender inequalities are most pronounced in the domains of power (27.0 points), time (44.7 points) and work (64.4 points). In these domains, Greece performs poorly in comparison with other Member States (ranking 27th in all three).

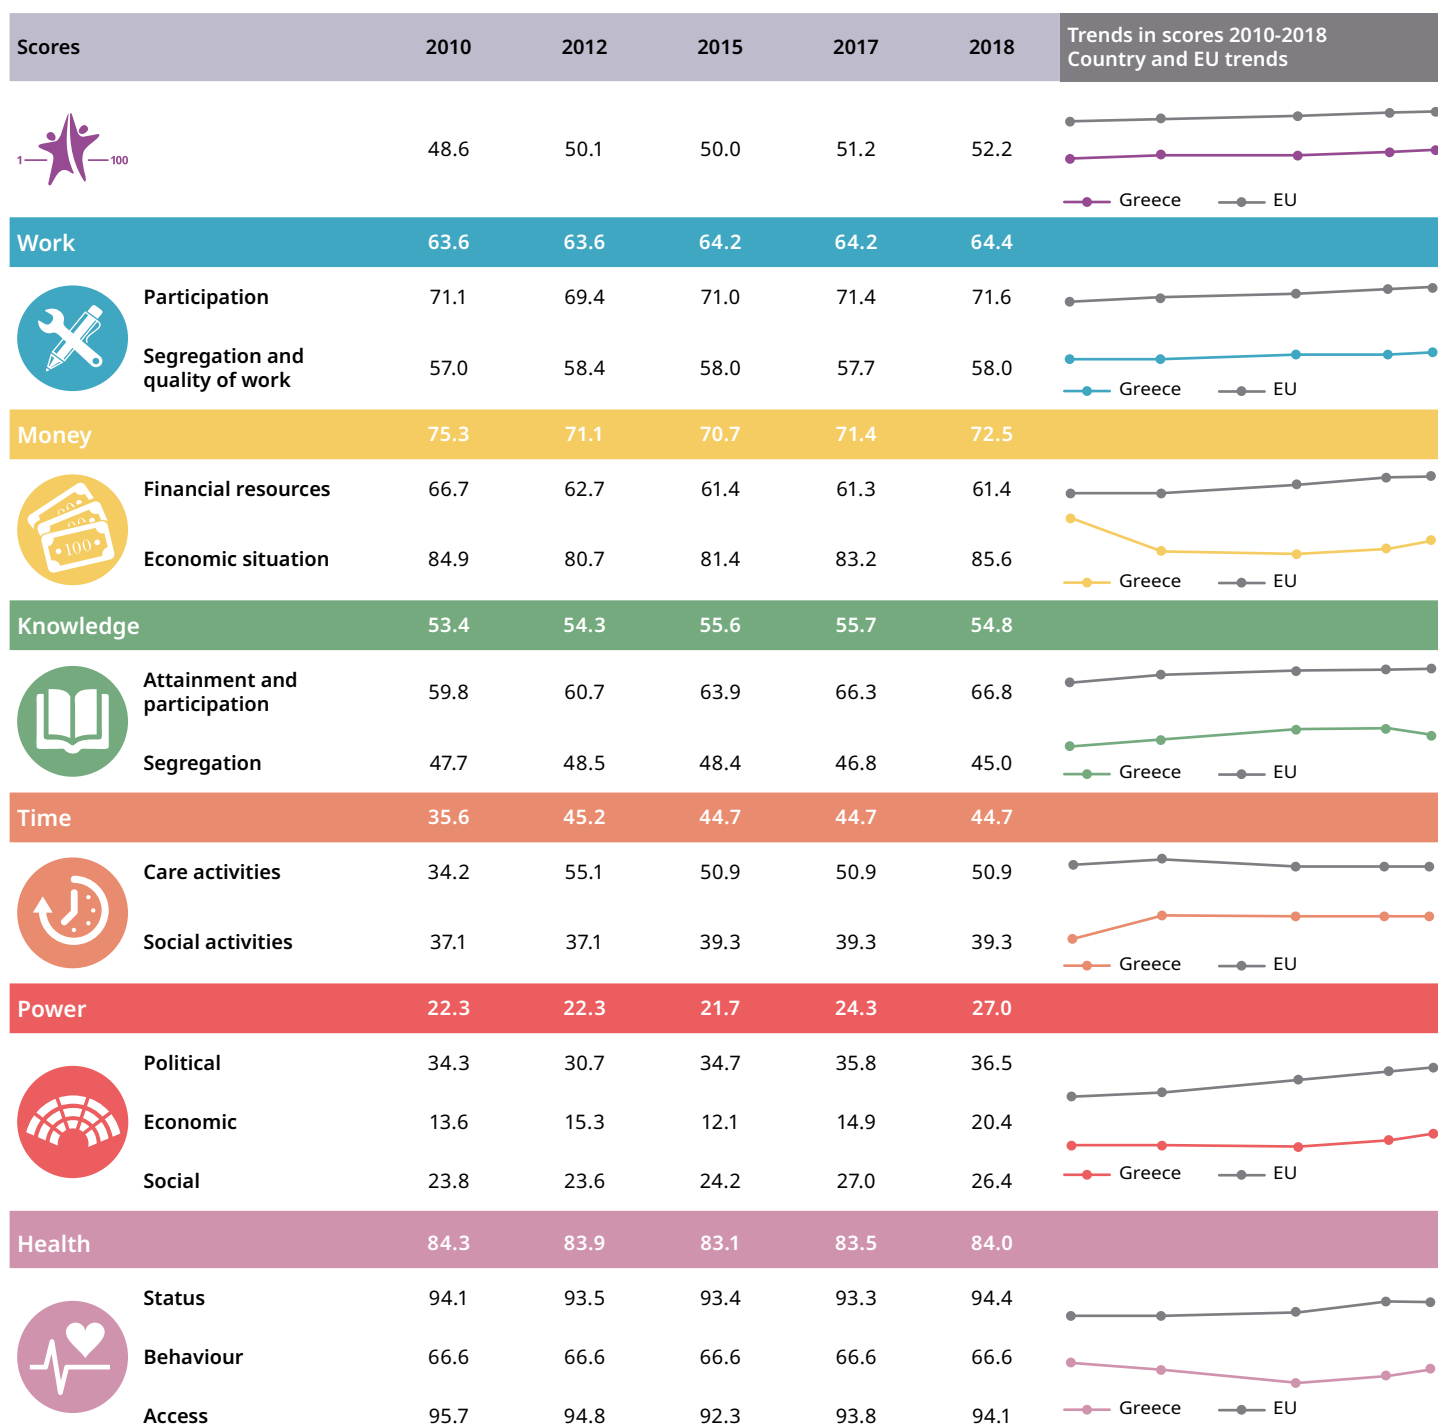

Biggest improvement

Since 2010, Greece's scores have improved the most in the domains of time (+ 9.1 points) and power (+ 4.7 points). Greece has gained 2.7 points in the domain of power since 2017.

A step backwards

Since 2010, Greece's scores have decreased in the domains of money (- 2.8 points) and health (- 0.3 points). Progress has stalled in the domain of work (+ 0.8 points).

Explore Greece's Index results

About the Index

Each year, we score the EU Member States and the EU as a whole to see how far they are from reaching gender equality. The Index uses **a scale of 1 to 100, where 1 is for total inequality and 100 is for total equality**.

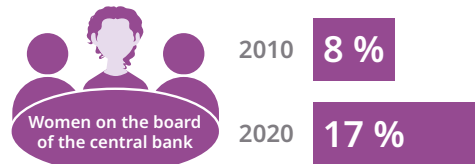

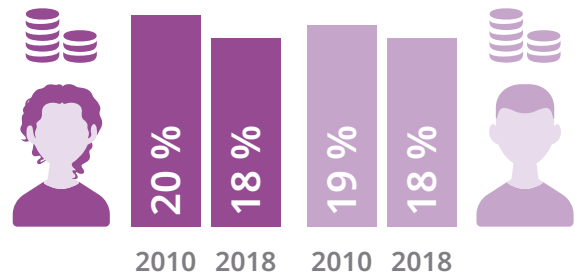

The scores are based on the gaps between women and men and levels of achievement in six core domains – work, money, knowledge, time, power and health – and **their subdomains**. **Two additional domains** are included in the Index but do not have an impact on the final score. The domain of intersecting inequalities highlights how gender inequalities manifest in combination with age, (dis)ability, country of birth, education and family type. The domain of violence against women measures and analyses women's experiences of violence. The Index is composed of **31 indicators**. The Gender Equality Index 2020 also includes **a thematic focus on digitalisation and the future of work**.

Key highlights

Economic situation improved for both women and men

The risk of poverty has slightly decreased for both women and men.

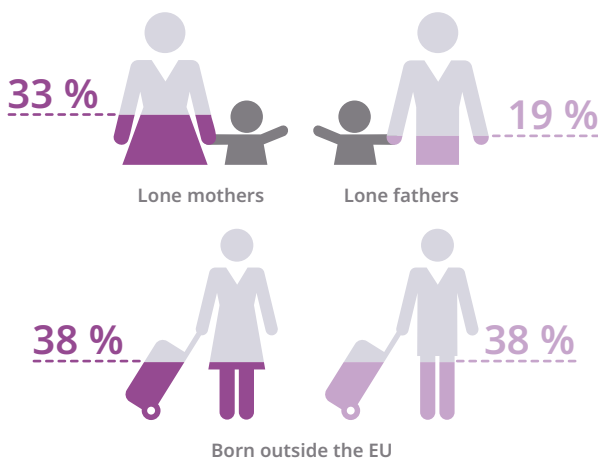

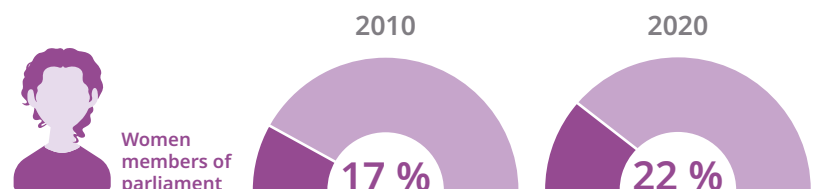

Improvement in gender balance in economic decision-making

The shares of women on the boards of the largest publicly listed companies and on the board of the central bank have increased.

Moving slowly towards gender balance in parliament

The share of women members of parliament has increased.

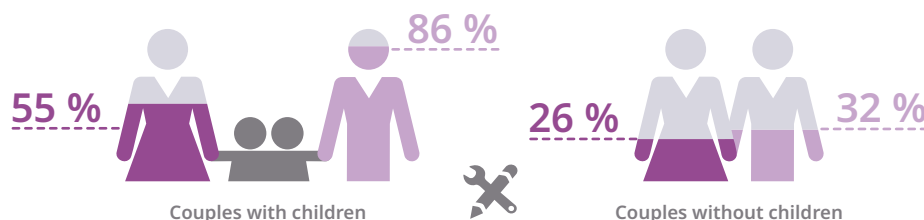

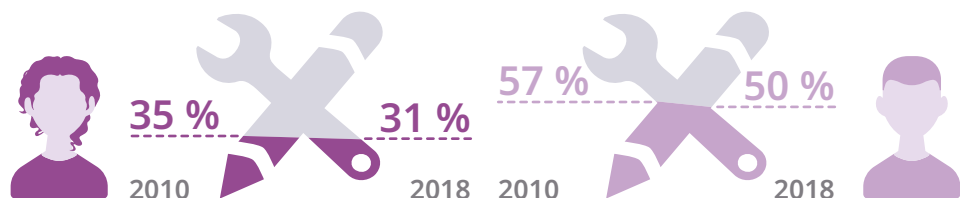

Inequality in economic situation

The people facing the highest risk of poverty are lone mothers and fathers and women and men born outside the EU.

Employment has decreased for both women and men

The full-time equivalent (FTE) employment rate has decreased for both women and men.

Gender gap in employment remains high, especially among some groups

Between women and men in couples with children, the gap in the FTE employment rate is six times bigger than in couples without children.

Explore Greece's performance by indicator

Indicators			Greece		EU	
			Women	Men	Women	Men
Work						
	Participation	Full-time equivalent (FTE) employment rate* (15 +, %, 2018)	31	50	42	57
		Duration of working life (15 +, years, 2018)	29	36	34	39
	Segregation and quality of work	Segregation in employment (15 +, %, 2018)	23	8	31	8
		Flexibility (15 +, %, 2015)	14	16	23	27
		Career Prospects Index (15 +, points, 0–100, 2015)	51	52	63	64
Money						
	Financial resources	Mean monthly earnings (16 +, euro in purchasing power standard, 2014)	1 669	1 971	2 249	2 809
		Mean yearly household net income** (16 +, euros in purchasing power standard, 2018)	10 541	10 860	17 860	18 668
	Economic conditions	At risk of poverty (16 +, %, 2018)	18	18	17	16
		Income distribution (16 +, %, 2018)	19	18	20	19
Knowledge						
	Attainment and participation	Graduates from tertiary education (15 +, %, 2018)	23	24	26	25
		Participation in lifelong learning (15 +, %, 2018)	11	12	17	16
	Segregation	Segregation in education (15 +, %, 2017)	36	16	43	21
Time						
	Care activities	Caring for children, grandchildren, older people or people with disabilities (18 +, %, 2016)	38	20	38	25
		Cooking and/or housework every day (18 +, %, 2016)	85	16	79	34
	Social activities	Sporting, cultural or leisure activities (15 +, %, 2015)	11	18	28	32
		Voluntary or charitable activities (15 +, %, 2015)	7	6	12	11
Power						
	Political	Ministers (%, second quarter of 2020)	10	90	32	68
		Members of parliament (both houses) (%, second quarter of 2020)	22	78	32	68
		Members of regional assemblies/local municipalities (%, 2019)	21	79	29	71
	Economic	Board members of largest companies (%, first semester of 2020)	12	88	29	71
		Board members of central bank (%, 2019)	17	83	25	75
	Social	Board members of research funding organisations (%, 2019)	13	88	38	62
		Board members of public broadcasting organisations (%, 2019)	17	83	37	63
		Board members of national Olympic sport organisations (%, 2019)	10	90	17	83
Health						
	Status	People in good health (16 +, %, 2018)	74	78	67	72
		Life expectancy (years, 2018)	84	79	84	78
		Healthy life years (years, 2018)	66	65	64	63
	Behaviour	Smoking and drinking** (16 +, %, 2014)	30	46	28	48
		Physical activity and/or consuming fruit and vegetables** (16 +, %, 2014)	20	25	36	40
	Access	Unmet need for medical examination (16 +, %, 2018)	11	9	4	3
		Unmet need for dental examination (16 +, %, 2018)	11	10	4	4

Violence

Why is there no score for the violence domain?

There is no new data to update the score for violence, which is why no figure is given. Eurostat is currently coordinating an EU-wide survey on gender-based violence, with results expected in 2023. EIGE will launch a second round of administrative data collection on intimate partner violence, rape and femicide in 2022. Both data sources will be used to update the domain of violence in the Gender Equality Index 2024.

Unlike the other domains of the Index, the domain of violence does not measure differences between women's and men's situations; rather, it examines women's experiences of violence (prevalence, severity and disclosure). The overall objective is not to reduce the gaps in violence between women and men, but to eradicate violence completely.

Data gaps mask the true scale of violence.

The EU needs comprehensive, up-to-date and comparable data to develop effective policies that combat violence against women.

Violence at a glance

Femicide

7 women killed by their partner
No data is available on women victims of intentional homicide by a family member

Source: Eurostat

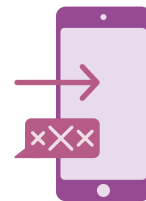

Female Genital Mutilation (FGM)

25–42 %
at risk of FGM

25 % to 42 % of 1 787 girls (in the resident migrant population) are at risk of female genital mutilation

Source: EIGE

Cyberviolence

2 % of women experienced online harassment

Source: Eurofound, European Quality of Life Survey

During the COVID-19 lockdowns, women in violent relationships were stuck at home and exposed to their abuser for long periods of time, putting them at greater risk of domestic violence. Even without a pandemic, women face the greatest danger from people they know.

Istanbul Convention: state of play

The Istanbul Convention is the most comprehensive international human rights treaty on violence against women and domestic violence. Greece signed the Istanbul Convention in May 2011 and ratified it in June 2018. The treaty entered into force in October 2018.

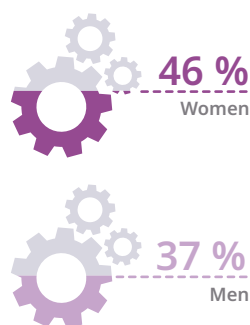

Thematic focus on digitalisation and the future of work

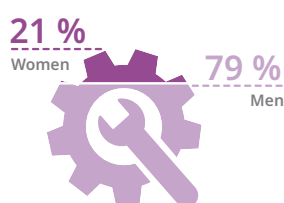

The Gender Equality Index 2020 focuses on digitalisation and the future of work. The thematic focus looks at three areas:

- use and development of digital skills and technologies;
- digital transformation of the world of work (segregation, working conditions, work–life balance);
- broader consequences of digitalisation for human rights, violence against women, and caring activities.

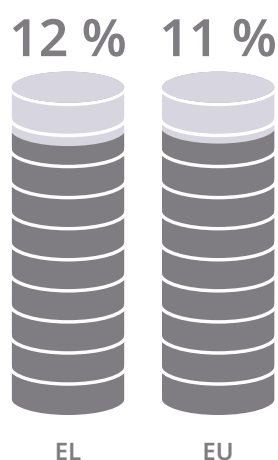

Above basic digital skills among people aged 25–29 years

Scientists and engineers in high-technology sectors

Gender pay gap in ICT

Main indicators	Greece		EU	
	Women	Men	Women	Men
Digital skills				
Internet daily users (16–74, %, 2019)	63	66	78	80
Above basic digital skills (16–74, %, 2019)	22	25	31	36
Information skills	66	69	71	71
Communications skills	58	58	67	66
Problem-solving skills	38	45	56	63
Software skills	31	35	39	44
Training to improve digital skills (16–74, %, 2018)	10	12	18	22
Segregation in education and labour market				
ICT graduates (%, 2018)	39	61	20	80
ICT specialists (15 +, %, 2019)	16 (s)	84 (s)	18 (s)	82 (s)
Scientists and engineers in high-technology sectors (25–64, %, 2019)	21	79	20	80
Working in ICT				
ICT at work and activities performed (16–74, %, 2018)				
Used computer, laptop, smartphone, etc.	20	28	37	42
Used other computerised equipment	9	14	8	13
Exchanged emails	16	21	32	36
Created or edited electronic documents	16	20	24	28
Used social media	5	8	9	11
Used applications to receive tasks or instructions	4	7	10	14
Used occupation-specific software	8	13	19	24
Developed or maintained IT systems or software	2	5	3	7
Part-time in ICT (20–64, %, 2018)	4	3	17	5
Working time arrangements among ICT specialists (20–64, %, 2015, national-level data not available)				
Gender pay gap in ICT (%, 2014)	12		11	

In the EU, 21 % of women and 22 % of men entirely determined their working hours themselves, compared with 13 % of women and 18 % of men in other occupations

Source: Eurostat (education statistics, digital economy and society statistics, European Union Labour Force Survey, Structure of Earnings Survey), Eurofound (European Working Conditions Survey)
s: Eurostat estimate
Some areas of concern (e.g. platform work and artificial intelligence) are not covered by the indicators owing to a lack of EU-wide comparable data.

European Institute for Gender Equality

The European Institute for Gender Equality (EIGE) is the EU knowledge centre on gender equality. EIGE supports policymakers and all relevant institutions in their efforts to make equality between women and men a reality for all Europeans by providing them with specific expertise and comparable and reliable data on gender equality in Europe.
