

# Gender Equality Index 2020

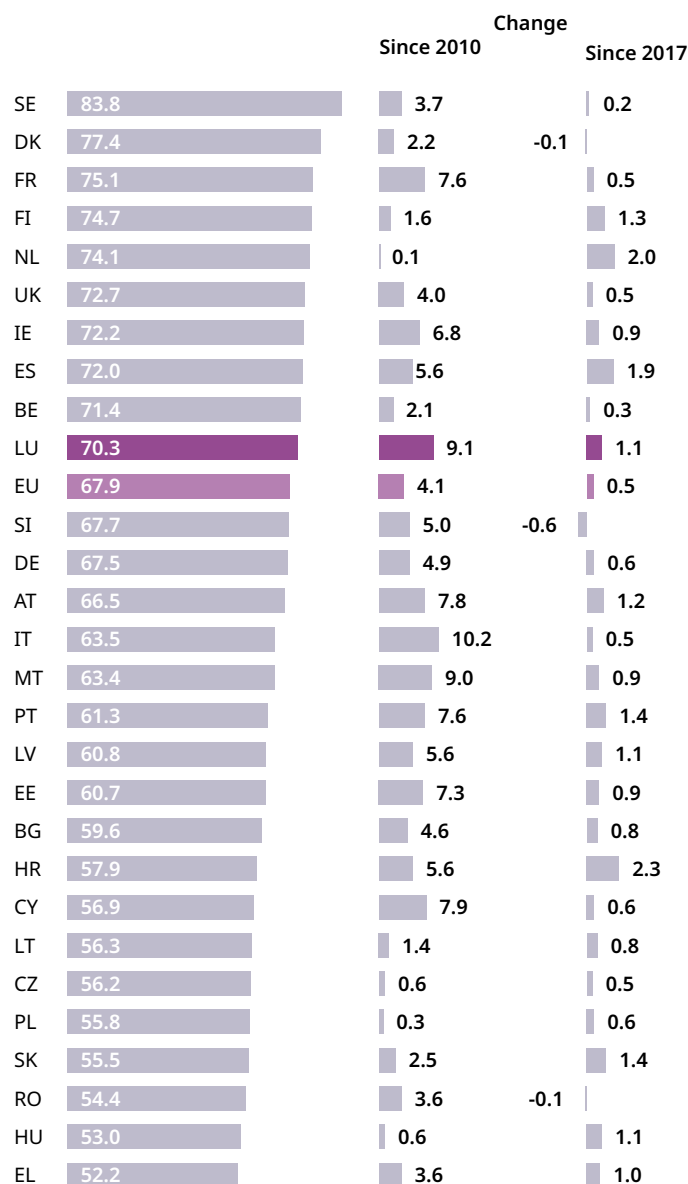

## LUXEMBOURG

### Progress on gender equality in Luxembourg since 2010

With 70.3 out of 100 points, Luxembourg ranks 10th in the EU on the Gender Equality Index. Its score is 2.4 points above the EU's score.

Since 2010, its score has increased by 9.1 points (+ 1.1 points since 2017). Luxembourg is progressing towards gender equality at a faster pace than other EU Member States. Its ranking has improved by two places since 2010.

#### Best performance

Luxembourg's score is highest in the domain of money (90.0 points), where it ranks 1st. Its second highest score is in the domain of health (89.5 points), where it ranks 10th among all countries.

#### Most room for improvement

Gender inequalities are most pronounced in the domain of power (48.4 points), where Luxembourg ranks 16th. Compared with other countries, there is also room for improvement in the domain of health, where it ranks 10th.

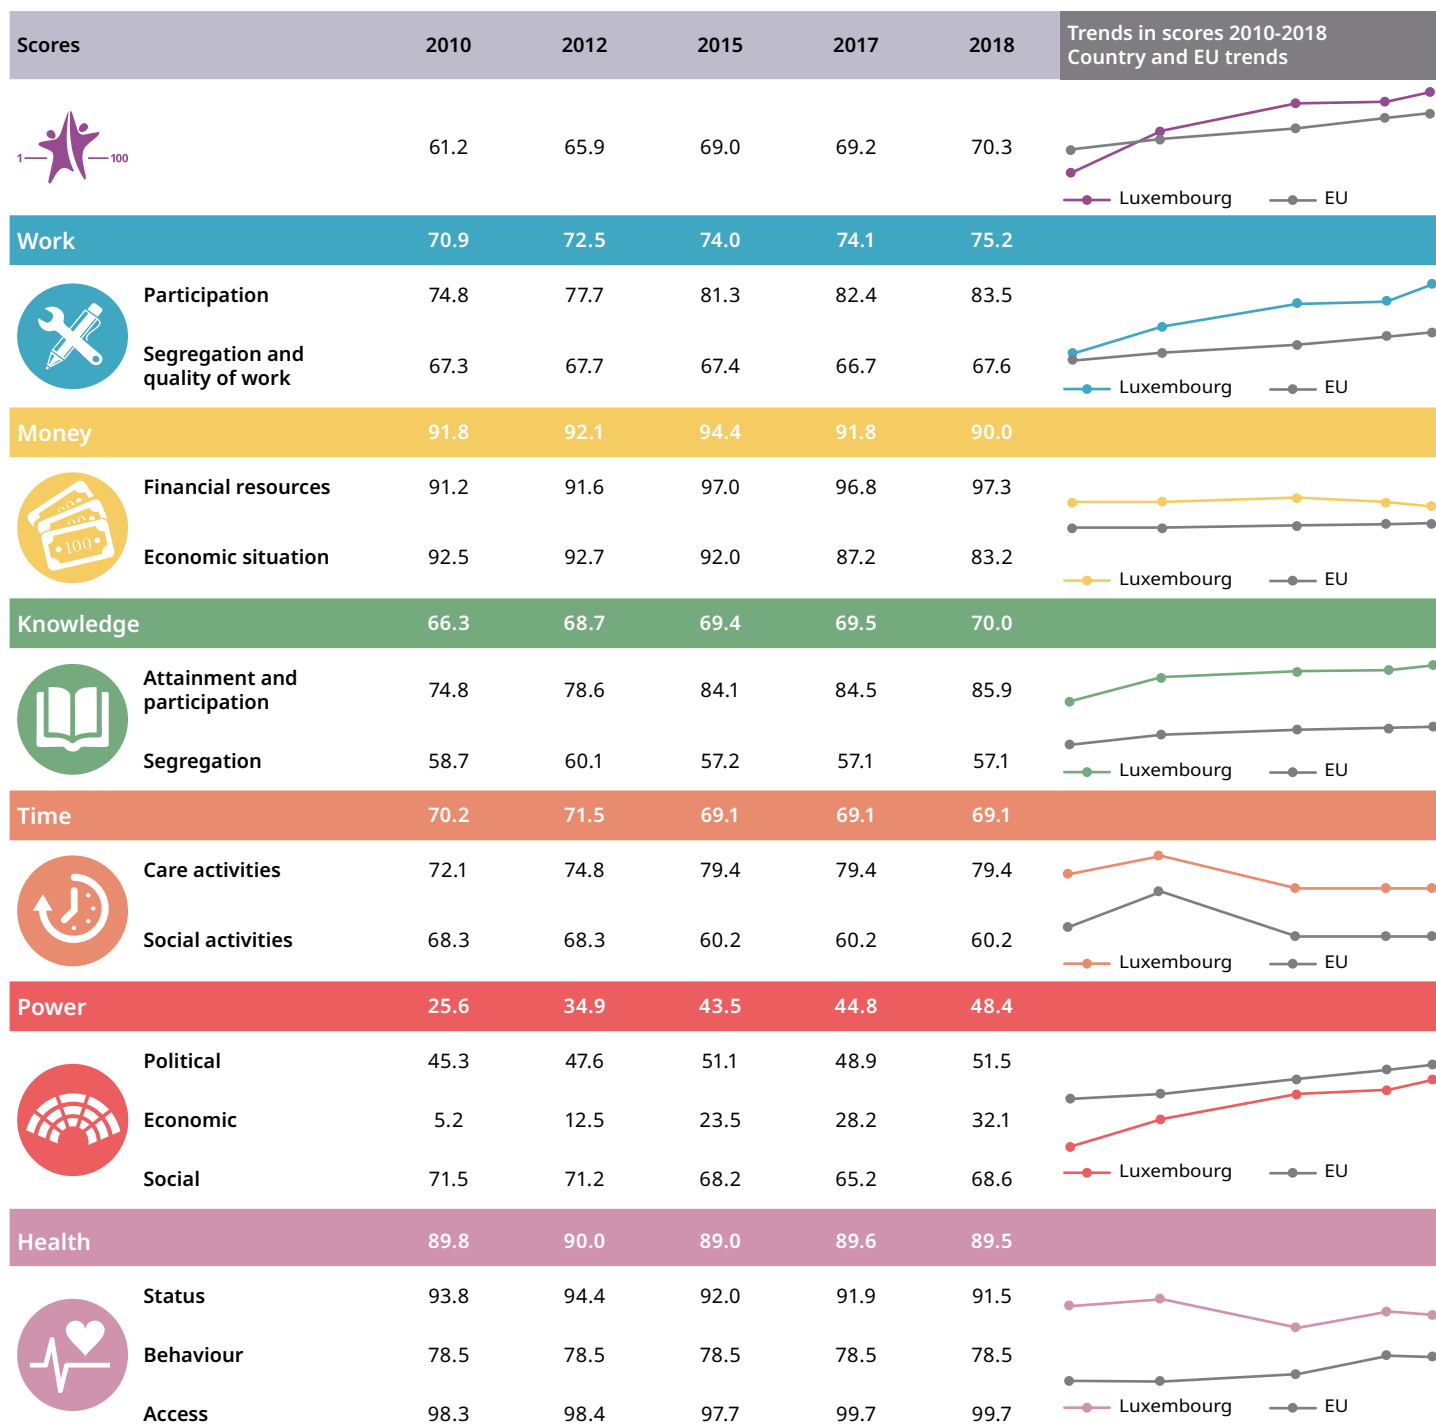

#### Biggest improvement

Since 2010, Luxembourg's score has improved the most in the domain of power (+ 22.8 points). Its ranking has improved by six places. It has also moved up seven places in the domain of work, with an increase of 4.3 points.

#### A step backwards

Since 2010, Luxembourg's scores have decreased in the domains of money (- 1.8 points), time (- 1.1 points) and health (- 0.3 points). In the domain of health, it has dropped by two places in the ranking.

# Explore Luxembourg's Index results

## About the Index

Each year, we score the EU Member States and the EU as a whole to see how far they are from reaching gender equality. The Index uses **a scale of 1 to 100, where 1 is for total inequality and 100 is for total equality**.

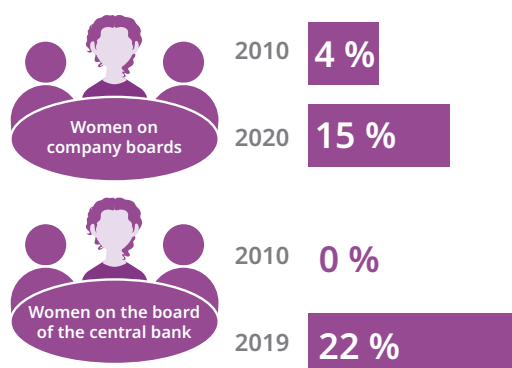

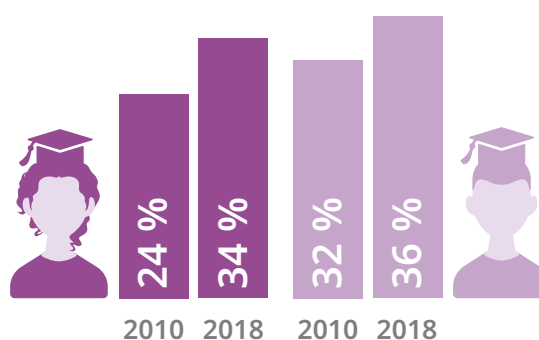

The scores are based on the gaps between women and men and levels of achievement in six core domains – work, money, knowledge, time, power and health – and **their subdomains**. **Two additional domains** are included in the Index but do not have an impact on the final score. The domain of intersecting inequalities highlights how gender inequalities manifest in combination with age, (dis)ability, country of birth, education and family type. The domain of violence against women measures and analyses women's experiences of violence. The Index is composed of **31 indicators**. The Gender Equality Index 2020 also includes **a thematic focus on digitalisation and the future of work**.

# Key highlights

## More graduates from tertiary education

There has been an increase in tertiary educational attainment among both women and men. The share of women tertiary graduates increased at a faster pace than the share of men tertiary graduates, narrowing the gender gap.

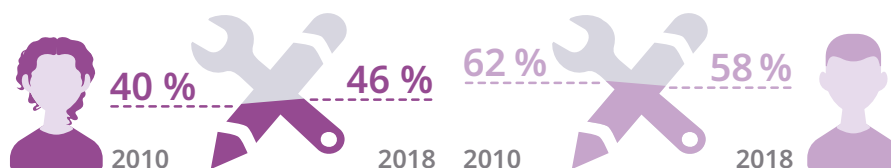

## Improvements in economic decision-making

The shares of women among the board members of the largest quoted companies and on the board of the central bank have increased.

## Narrowing gender gap in employment

The gender gap in the full-time equivalent (FTE) employment rate has narrowed.

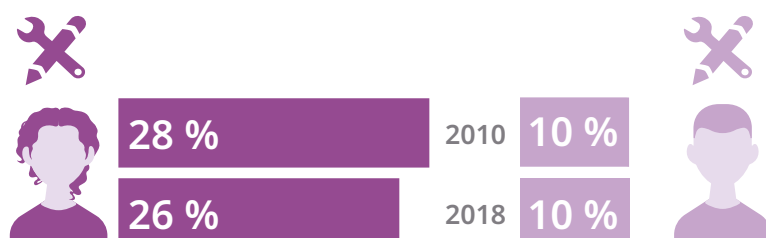

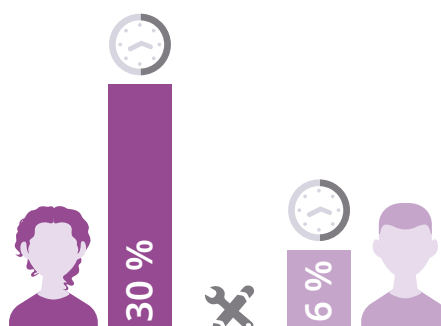

## Uneven concentration of women and men in education persists

More women than men study education, health and welfare, or humanities and the arts.

## Unequal take-up of part-time work

Women are five times more likely than men to work part-time.

## Uneven concentration of women and men persists in the workforce

More women than men work in education, health and social work.

# Explore Luxembourg's performance by indicator

Indicators			Luxembourg		EU	
			Women	Men	Women	Men
Work						
	Participation	Full-time equivalent (FTE) employment rate* (15 +, %, 2018)	46	58	42	57
		Duration of working life (15 +, years, 2018)	32	35	34	39
	Segregation and quality of work	Segregation in employment (15 +, %, 2018)	26	10	31	8
		Flexibility (15 +, %, 2015)	23	30	23	27
		Career Prospects Index (15 +, points, 0–100, 2015)	70	73	63	64
Money						
	Financial resources	Mean monthly earnings (16 +, euro in purchasing power standard, 2014)	3 322	3 601	2 249	2 809
		Mean yearly household net income** (16 +, euros in purchasing power standard, 2018)	38 187	39 265	17 860	18 668
	Economic conditions	At risk of poverty (16 +, %, 2018)	19	16	17	16
		Income distribution (16 +, %, 2018)	17	18	20	19
Knowledge						
	Attainment and participation	Graduates from tertiary education (15 +, %, 2018)	34	36	26	25
		Participation in lifelong learning (15 +, %, 2018)	24	25	17	16
	Segregation	Segregation in education (15 +, %, 2017)	38	22	43	21
Time						
	Care activities	Caring for children, grandchildren, older people or people with disabilities (18 +, %, 2016)	42	36	38	25
		Cooking and/or housework every day (18 +, %, 2016)	78	39	79	34
	Social activities	Sporting, cultural or leisure activities (15 +, %, 2015)	37	46	28	32
		Voluntary or charitable activities (15 +, %, 2015)	10	22	12	11
Power						
	Political	Ministers (%, second quarter of 2020)	29	71	32	68
		Members of parliament (both houses) (%, second quarter of 2020)	32	68	32	68
		Members of regional assemblies/local municipalities (%, 2019)	25	75	29	71
	Economic	Board members of largest companies (%, first semester of 2020)	15	85	29	71
		Board members of central bank (%, 2019)	22	78	25	75
	Social	Board members of research funding organisations (%, 2019)	44	56	38	62
		Board members of public broadcasting organisations (%, 2019)	44	56	37	63
		Board members of national Olympic sport organisations (%, 2019)	20	80	17	83
Health						
	Status	People in good health (16 +, %, 2018)	66	71	67	72
		Life expectancy (years, 2018)	85	80	84	78
		Healthy life years (years, 2018)	60	61	64	63
	Behaviour	Smoking and drinking** (16 +, %, 2014)	35	54	28	48
		Physical activity and/or consuming fruit and vegetables** (16 +, %, 2014)	48	51	36	40
	Access	Unmet need for medical examination (16 +, %, 2018)	1	1	4	3
		Unmet need for dental examination (16 +, %, 2018)	1	1	4	4

## Violence

### Why is there no score for the violence domain?

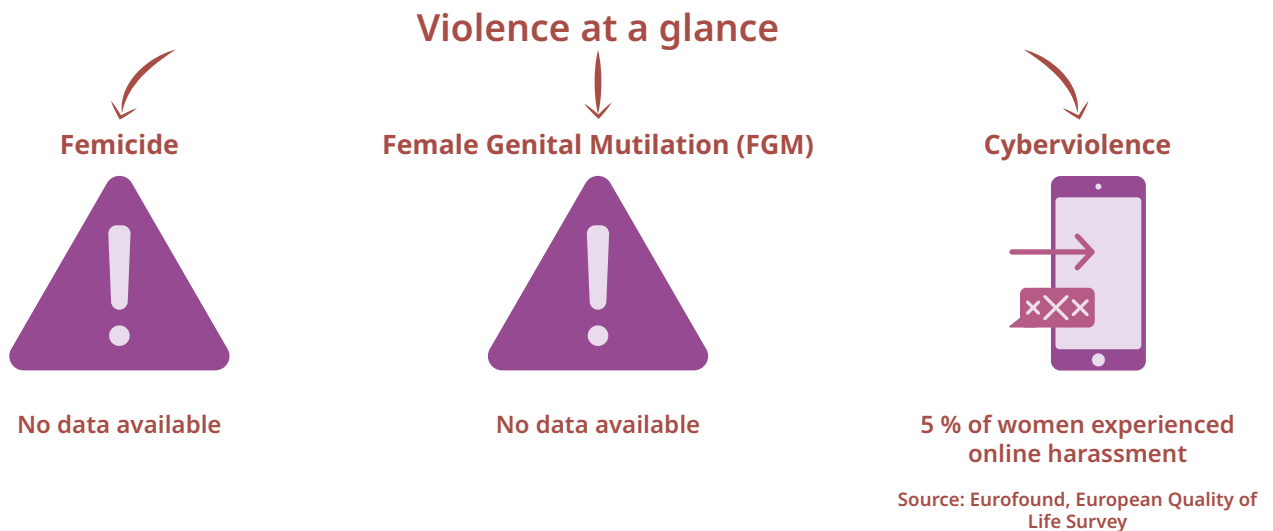

There is no new data to update the score for violence, which is why no figure is given. Eurostat is currently coordinating an EU-wide survey on gender-based violence, with results expected in 2023. EIGE will launch a second round of administrative data collection on intimate partner violence, rape and femicide in 2022. Both data sources will be used to update the domain of violence in the Gender Equality Index 2024.

Unlike the other domains of the Index, the domain of violence does not measure differences between women's and men's situations; rather, it examines women's experiences of violence (prevalence, severity and disclosure). The overall objective is not to reduce the gaps in violence between women and men, but to eradicate violence completely.

**Data gaps mask the true scale of violence.**

**The EU needs comprehensive, up-to-date and comparable data to develop effective policies that combat violence against women.**

During the COVID-19 lockdowns, women in violent relationships were stuck at home and exposed to their abuser for long periods of time, putting them at greater risk of domestic violence. Even without a pandemic, women face the greatest danger from people they know.

### Istanbul Convention: state of play

The Istanbul Convention is the most comprehensive international human rights treaty on violence against women and domestic violence. Luxembourg signed the Istanbul Convention in May 2011 and ratified it in August 2018. The treaty entered into force in December 2018.

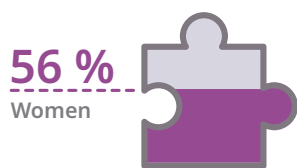

## Thematic focus on digitalisation and the future of work

The Gender Equality Index 2020 focuses on digitalisation and the future of work. The thematic focus looks at three areas:

- use and development of digital skills and technologies;
- digital transformation of the world of work (segregation, working conditions, work-life balance);
- broader consequences of digitalisation for human rights, violence against women, and caring activities.

## Above basic problem-solving skills, among those with medium level of formal education

## ICT graduates

## Part-time in ICT

Main indicators	Luxembourg		EU	
	Women	Men	Women	Men
<b>Digital skills</b>				
Internet daily users (16–74, %, 2019)	84	90	78	80
Above basic digital skills (16–74, %, 2019)	32 (b)	40 (b)	31	36
Information skills	71 (b)	76 (b)	71	71
Communications skills	72 (b)	72 (b)	67	66
Problem-solving skills	57 (b)	69 (b)	56	63
Software skills	43 (b)	50 (b)	39	44
Training to improve digital skills (16–74, %, 2018)	24	37	18	22
<b>Segregation in education and labour market</b>				
ICT graduates (% , 2018)	10	90	20	80
ICT specialists (15 +, %, 2019)	17	83	18 (s)	82 (s)
Scientists and engineers in high-technology sectors (25–64, %, 2019)	13 (u)	87	20	80
<b>Working in ICT</b>				
ICT at work and activities performed (16–74, %, 2018)				
Used computer, laptop, smartphone, etc.	42	49	37	42
Used other computerised equipment	10	17	8	13
Exchanged emails	37	42	32	36
Created or edited electronic documents	32	35	24	28
Used social media	9	12	9	11
Used applications to receive tasks or instructions	12	18	10	14
Used occupation-specific software	19	27	19	24
Developed or maintained IT systems or software	3	9	3	7
Part-time in ICT (20–64, %, 2018)	25	4	17	5
Working time arrangements among ICT specialists (20–64, %, 2015, national-level data not available)				
Gender pay gap in ICT (% , 2014)	7		11	

In the EU, 21 % of women and 22 % of men entirely determined their working hours themselves, compared with 13 % of women and 18 % of men in other occupations

Source: Eurostat (education statistics, digital economy and society statistics, European Union Labour Force Survey, Structure of Earnings Survey), Eurofound (European Working Conditions Survey).  
s: Eurostat estimate.  
u: low reliability.  
b: break in time series.  
Some areas of concern (e.g. platform work and artificial intelligence) are not covered by the indicators owing to a lack of EU-wide comparable data.

## European Institute for Gender Equality

The European Institute for Gender Equality (EIGE) is the EU knowledge centre on gender equality. EIGE supports policymakers and all relevant institutions in their efforts to make equality between women and men a reality for all Europeans by providing them with specific expertise and comparable and reliable data on gender equality in Europe.
