EIGE/2014/OPER/07. Questions & Answers No: 4

Question 1:

With regard to the above-mentioned tender procedure, could you tell us whether the experts that should be involved in the interaction process (review cycles, page) have already been identified by EIGE? If yes, do you expect that the review/feedback cycles mentioned at page 7 and 12 of the technical specifications take place in Vilnius and in person (e.g with the experts physically present)? In this case, does the price of the event/meeting need to be covered by the tenderer?

Answer 1:

The contact details of the lists of experts are compiled and will be provided by EIGE to the contractor. The tenderers are expected to propose the best means of collecting feedback from the experts. No physical meetings are foreseen in Vilnius for the feedback cycles with the experts.
