### Data Talks

#### How many women have top positions in the EU candidate countries and potential candidates?

EIGE's Gender Statistics Database has expanded beyond the current EU Member States. We can now monitor how gender-balance in decision-making is developing also in the Western Balkan countries and Turkey, which are part of the EU programme called the Instrument for Pre-accession Assistance (IPA). EIGE supports the IPA countries in their efforts to monitor and foster gender equality in the region. This is what the latest data shows.

# Administrative data collection on intimate partner violence, rape and femicide

# Data collection process

## Phase 1: Desk research (Nov '18 – Feb '19)

- Dedicated country researchers for 30 jurisdictions
- Review of government, agencies and national statistical institutes' websites
- Population of data collection tool (xlsx) with data and metadata

## Phase 2: Validation (Feb '19 – ongoing)

- Requests sent via email and phone
- Named contacts at relevant organisations (Police, Home Ministries, Justice Ministries, Courts...) were approached
- Validation obtained on available (meta)data and missing (metadata)data

## Proxy and missing data

- No disaggregation by sex, age or victim-perpetrator relationship
- Data only on victim or only on offence
- No data on IPV (often: Domestic violence)
- Data not centrally/digitally collected

## Next steps

- Final validation for some jurisdictions
- Publication of data and data collection tools on EIGE's Gender Statistics Database

# Data publication in EIGE's Database

- Data that adhere to EIGE's definition will be displayed in EIGE's Database
- Data will be displayed in dedicated data tables for each indicator
