

18%

of women in
the EU have
been physically
or sexually
abused by their
partner

 IT

 SHOULD

 BE

ZERO

This violence has
tangible impacts
on their physical,
emotional and
economic
well-being:

26% resort to
using
medication

18% need time
off work

17% consume
alcohol or
drugs to
cope

 **PRIORITISE**

 **PREVENTION**

HOW?

- Adopt national strategies that challenge gender stereotypes
- Mobilise education and training
- Engage all relevant actors

Insights from the **biggest**
EU survey on **violence**
against women from
FRA and ELGE, asked almost
115,000 women about
their lived experience.
